# INNOVATIVE ONLINE MARKETPLACE PROVIDES CONVENIENT, ONE-STOP HUB TO HELP INDIVIDUALS CONNECT WITH TRUSTED SERVICE PROVIDERS

SAN JOSE, CA— With increasing costs of living, the pressure to get the best value for every dollar spent is growing. And with our ever-busier schedules, we find we have less time to deal with random everyday tasks from walking our dog to mowing our lawn. Though we depend more and more on external service providers to fill the gap, it can be challenging to find a trustworthy service provider to help with some of life's responsibilities. Innovative new platform EezyBee is an online marketplace dedicated to doing just this: connecting service seekers with trusted service providers.

So, how does it work? Service providers sign up on EezyBee to offer services to local individuals based on their geographical proximity and expertise; and service seekers sign up on EezyBee to find services they need fulfilled. The platform connects the two in a seamless, one-stop online "shop" that offers all the tools to find, plan, transact and complete a task without having to go through the loops of phone calls, cash withdrawals, web searches and arguments.

EezyBee's goal is to cut down on the amount of time people spend looking for a trusted and highly rated business or service provider to handle a job, giving them more time to spend doing the things they enjoy. The back-and-fourth quote chasing is effectively put to an end, all service prices and descriptions are stated up front, and the entire service can be transacted online or from your mobile phone, including issuing receipts and invoices, keeping a record of hours and costs, and discussing work with the client. You really do not have to go anywhere else!

The EezyBee online marketplace was created by Go Proxima Inc., a start-up focused on creating digital products that improve the way people connect and manage their well-being. Their intuitive platform separates itself from others by featuring an interface that

makes finding, posting, engaging, hiring and effectively completing a service in a seamless experience. EezyBee's was designed to provide what they term a S.T.A.A.R. experience to the service provider and seeker communities - Seamless, Trustworthy, Affordable, Accessible and Reliable services. There are hundreds of services offered, ranging from anything to everything, including, as you would expect, appliance repairs, catering, tailoring and pet sitting just to name a few. By simply going to their website, EezyBee.com, and clicking under the browse tab, people will find a list of service providers broken down alphabetically by expertise or service offered, making it simple to scroll through and find any service you may require.

EezyBee also aims to add positively to the community by providing positive and transparent interactions between service seekers and providers. They are also thinking green from the start; eliminating paper printing by offering an eco-friendly, purely digital platform that does away with printed invoices and receipts, and helps you to manage all your records digitally. And by creating an innovate marketplace that offers new opportunities in the service sector, and allows small businesses or individuals who do not have the resources to build a website to be featured, EezyBee helps to support and grow the local economy.

For more information, please visit EezyBee.com. Feel free to contact them through the website based contact form with any questions or ideas, or simply sign up to become a member.
